For The Dentist ▲ ▲ ▲ By Dentists About Dentistry
**Our 39th Year:** The only annual dental homeopathy meeting created exclusively for classical dental homeopathy. A staff of experienced dental homeopaths share group setting. The essence of how to use homeopathy in a modern dental practice.

**The Basic Course:**
Is a fully developed system which enables the participant to understand how to use the 200 year old tested, proven classical approach to homeopathy. Actual cases from dental offices are used to train the participant. The required texts are Kent’s Repertory and Boericke’s Handbook. The participant will become very knowledgeable about these texts and their use. The student will learn acute remedies for bleeding, pain, dry socket, gum healing, muscle spasms, cold sores, fear, gagging, healing after surgery and many more uses in the dental office, and become familiar with the homeopathic glossary.

**The Advanced Course:**
Mac Repertory software is featured in the development of dental cases. Bring your laptop (Mac or PC) and learn how to pick the exact remedy. The course is tailored to each individual’s level of expertise with the computer and with the homeopathic software. Computer use is a must for the busy dental office. All cases used in teaching the advanced course are actual homeopathic cases from real dental practices. The basis for the body’s ability to heal itself was discovered by homeopaths 200 years ago. This is most important in oral health, as often the oral tissues must heal from within regardless of what we dentists have to do. Homeopathic remedies unlock healing forces. One other important fact: there has never been a reported side effect of a single homeopathic remedy which is listed in the US Homeopathic Pharmacopeia.
